

What Programming means to you?

I feel like programming is a tool that helps to solve the real world problems as it helps to turn the simple idea into something usable. Since beginning I have always enjoyed breaking things down and finding the patterns and programming give me way to do that. It is a platform that allows me to think logically and apply my creativity.

Goals for the internship and what I hope to learn

My goal for this internship is to apply what I have learned till now to real-world projects and understand how software is developed in a professional environment. I want to get hands on experience on .net technologies and improve my coding skills as well. I also hope through this opportunity I will learn to become comfortable on working with team.

First task:

```
Please enter your name Suyasha Adhikari
Hello, World!
Welcome to C# programming
My name is Suyasha Adhikari
Todays date is Tuesday, September 9, 2025

C:\Users\lenovo\OneDrive\Desktop\internship-batch-7\consoleappdemo\Suyasha.hel
d.exe (process 13416) exited with code 0 (0x0).
To automatically close the console when debugging stops, enable Tools->Options
le when debugging stops.
Press any key to close this window . . .
```
